Plan Provisions

State Variations

Plan design, benefits, optional features, provisions, definitions and exclusions may vary by state. See the quote summary or the proposal for available optional features. Refer to the State Variations sheet for state-specific benefits, provisions and exclusions.

Network Services for PPO Plans

A PPO network plan gives you the most value for your health care dollar. When you use network providers, covered charges are discounted and never exceed the usual and customary charge allowance. That means savings for you, and no worries about being billed for additional charges. Network services are subject to a determination of medical necessity and deductible and coinsurance, unless otherwise noted.

Usual and Customary Charge Allowance

Charges for covered services performed by non-network providers are subject to the usual and customary charge allowance. Non-network providers may bill more than this amount, and you are responsible for any balance due to the provider.

Non-network Services for PPO Plans*

Emergencies: Covered services are always paid at the network benefit percentage—even if you are out of network—subject to a determination of medical necessity, the deductible and the network fee schedule.

Non-emergencies: Covered services are subject to a determination of medical necessity, the non-network deductible, a benefit percentage reduction, the increased non-network coinsurance maximum and the network fee schedule.

Individual non-network deductible is the individual deductible plus \$1,000.

Family non-network deductible is three times the individual non-network deductible and is met collectively by three or more persons.

Non-network benefit percentage is the selected benefit percentage less 20 percentage points.

Non-network coinsurance out-of-pocket maximum is \$8,000/person - \$16,000/family for all options except the No Deductible Package, which has \$12,500/person - \$25,000/family.

**In GA, MT and NH, please see the State Variations sheet for non-network provisions.*

Non-PPO Plans

Covered services are subject to: 1) a determination of medical necessity, 2) deductible and coinsurance, unless otherwise noted, and 3) the usual and customary charge allowance.

Utilization Review

Authorization is required before inpatient treatment and certain types of outpatient treatment. Unauthorized services will result in a penalty of 25% of the charge (up to \$1,000). Unauthorized transplants are not covered.

Pre-existing Conditions

A pre-existing condition is an illness or injury and related complications for which, during the 12-month period immediately prior to the effective date of your health insurance coverage: 1) you received diagnosis, treatment or prescription drugs or 2) symptoms were produced that would have caused an ordinarily prudent person to seek diagnosis or treatment. No benefits are paid for charges incurred due to a pre-existing condition until you have been continuously insured under the plan for 12 months. This 12-month limitation does not apply to health conditions that, at the time of underwriting, receive a rating load or are included in a condition-specific deductible, or to routine prescription drugs if their use is disclosed on the application. After the 12-month period, benefits are paid for a pre-existing condition, unless the condition is specifically excluded from coverage.

Benefit Waiting Periods on Certain Treatment

Benefits for certain types of treatment are payable after the benefit waiting period listed here:

- Surgical treatment of tonsils/adenoids—3 months
- Surgical treatment of bunions, hemorrhoids, inguinal hernia (except strangulated or incarcerated), varicose veins—6 months
- Sterilization—12 months

Benefit waiting periods are waived when this plan is replacing other similar in-force coverage.

SuiteSolutions (optional feature)

Accident Medical Expense benefits are reduced by benefits payable under any other insurance plan. Critical Illness Expense benefits are not available with child-only plans.

Office Visit Copay (optional feature)

A copay is your only cost for two eligible network office visits per person each year, including immunizations and allergy shots. The following services are covered subject to deductible and coinsurance, but are not eligible for benefits under the office visit copay: office visits with non-participating providers, surgical procedures, allergy testing, and imaging or laboratory services.

Dental-Vision Discount Plan (optional feature)

The Dental-Vision Discount Plan is a discount program. It does not provide insurance coverage.
